

## Descrizione dei Setups

Ogni report indica il nome del setup, il tipo di input per il quale è stato predisposto, il numero delle zone e successivamente descrive in ordine per gruppi e sottogruppi il contenuto grafico (Appearance), il tipo di azione che viene eseguita quando l'utente seleziona la zona (Action type) e gli eventuali feedback uditivi. Normalmente la numerazione dei gruppi e dei sottogruppi inizia in alto a sinistra per procedere prima verso destra e poi verso il basso. Attivando il menu File e scegliendo l'item **Report** si può visionare ed eventualmente stampare un resoconto completo del contenuto del setup aperto con l'applicativo **AccessX Editor**.
